

January 4, 2014

I just wanted to drop a note and express how delighted that I am with the addition of the Bedstep product to my truck. I had desired this feature for several years, but had not ordered it due to the cost. I ordered the Bedstep as a Christmas present to myself and I am delighted. My truck is a 2009 Chevy 2500 HD so the bed is very high off the ground. Also as I am 64 years old, I am no longer as flexible as I once was, have some knee issues thus climbing into the bed has been a challenge. I installed the Bedstep on the Driver's side. The bad news for me is that now my wife wants a Bedstep for the passenger side, but it is not practical to justify the cost.

Some impressive points in my opinion

- Item arrived in just a few days after ordering
- No missing parts
- Instructions are very detailed and very clear
- I installed the Bedstep in just a few minutes.
- No drilling required, easy bolt in, Very easy installation.
- It is obvious that considerable thought & Engineering went into the product. It fit well; no clearance issues and operates great.
- Works with tailgate open or closed
- Very easy to push down, and push up to retract

Thanks again for a great product!

Best Regards,

Frank Jenkins

A handwritten signature in cursive script that reads "Frank E. Jenkins". The signature is written in dark ink and is positioned below the printed name.

PS. A friend stopped by just after I finished the installation. I gave him the information and he said that he plans to order a Bedstep for his truck.
