

## AMP Research Power Step – Drop distance when deployed

Many times, customers ask, “how far does the step drop when deployed?” To give an accurate answer, we measured the distance from the top of the doorsill step plate to the top of the deployed running board.

Vehicle	Measurement: Top of sill plate to top of step when deployed
GM Trucks GMT 800 99 - 07 classic	13”
GM Trucks GMT 900 truck 07+	13 1/2”
Ford Super Duty	13 1/2”
Ford F-150	12”
Dodge Ram	13 3/4”
Nissan Titan	11”
